Another Attempt to Assassinate the Emperor of Germany.

BERLIN, June 3 .- While the Emperor was taking a drive at 2:30 yesterday afternoon some shots, apparently proceeding from a house in avenue Unter Den Linden, were fired at him. The Empero: was wounded in one arm and on the cheek by buckshot and small shot. The would be assassin 's a Dr. Nobeling, occupying apartments at No. 18 Unter Den Linden. When it's door was forced open he fired upon and wounded the hotel keeper and tried to commit suicide. Lut was secured. The Emporoi's personal attendant jumped into the carriage and supported the Emperor until the carriage reached the palace. The Emperor was conveyed to bed and several grains of shot extracted, causing great loss of blood. The Emperor suffered great pain, but never lost consciousness up to the latest moment. At seven o'clock last evening no serious apprehensions

were felt as to his condition. BERLIN, June 3.-The following is taken from official accounts and bulletins published in regard to the attempted assassination of the Emperor :

Nobeling fired twice with a double barreled gun. The Emperor received about thirty small shot in the face, head, both arms and back; but by about six o'clock yesterday evening his general condition had already improved in a

satisfactory manner. An immense crowd from all parts of the city thronged into the avenue Unter Den Linden on the news becoming known. The assassin is Karl Edouard Nobelgep, a native of Kallro, near Birnbaum, aged thirty-two years. He is a resident of Berlin, a dector of philology, an agriculturist, and a habitue of the Democratic Socialist clubs. A quantity of arms were found in his apartments. He fired on persons atin his apartments. He fired on persons attempting to arrest him with a ready loaded revolver, and then inflicted severe wounds on his own head. He confesses the crime, but home. A large number met at the residence of his own head. He confesses the crime, but obstinately refuses to state his motives. He is J. H. Gray to celebrate the second anniversary

The Emperor slept last night and asked for water, beef tea and wine, and conversed affably

In consequence of the attempt the Crown Prince Frederick William and wife have started from London for Berlin. Thirty shots have been extracted from the

body of the Emperor. A strong escort of mounted policy barely sufficed to protect Nobeling from the mob when goirg to the hospital. There was a rumor current that the ascassin's name was Ludwig, and that he was a religious fanatic. This, however, seems to be based on the fact that a pile of the Ultramontane Journal Germania was

found in his room. Nobeling has confessed that he cherished the murderous design for eight days, because except small vessels and the regular steamship he considered the Emperor's removal would be a public benefit. He declared that he favored Socialism, and had attended socialistic meet-A FORTUNE. -- Mrs. Jenkins, of this city, lings. The same account says that Nobeling is nieco of Mr. James Crawford, once preprietor supposed to be dying. It is known that a few

> BERLIN, June 3 .- The official bulletin, issued from the palace at 8:30 this morning, reports that the Emperor passed a quiet night. The pain from his wounds has been alleviated. The od as unanimous attention as any other feature physicians consider his condition satisfactory.

As soon as the first report was heard a chasseur, who was sitting on the box with the coachman, sprang into the vehicle and threw himself over the Emperor so that the slugs from the second shot touched only the arm of the Emperor.

When Nobeling found that resistance was useless, he attempted suicide by placing the pistol to his head. The ball inflicted a painful,

but not motal, scalp wound. BERLIN, June 3-1:20 p. m. - The condition of the Emperor continues to be satisfactory. LONDON, June 3 .- All accounts received from Berlin say the effect of the news that another attempt had been made on the life of the Emperor was astounding. The outburst of rublic feeling went as far beyond the manifestations made on the previous occasion YEAST POWDER. It is entirely free from as Nobeling's attempt exceeds that of Hoedel contains absolute full weight. Dr. Nobeling came to Berlin a few weeks ago from Halle. He hired a furnished room on the second floor of No. 18 Unter Den Linden, from the window of which the shots were fired. Nobeling was formerly in the civil service of the Kingdom of Saxony. He was a regular contributor to agricultural journals and seems to have been in easy circumstances. He studied agriculture and finance at Halle and

THE PREVENTION OF A TERRIBLE DISaster. - No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase-completely wrock the sys tem. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has a roved to be highly effective as a means of imparting tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneffcial result of this medi cine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative officiency of those organs, which are most important outlots for the escape of such impurities.

B-D BY UNIVERSAL ACCORD AYER'S CA-THARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other Pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effectual, cathartic is required. E. S. Loadboater & Bre., Agents.

The Washington Republican thus notices the death of Sam. C. Proctor, formerly of this city : After a bri-f illness from complication of diseases, Mr Samuel C. Proctor lied at his residence, on Missouri avenue, early last Saturday morning. The deceased enjoyed an extended acquaintance, and being of a free, generous, jovial disposition, endeared himself to his friends who will unite with the family in mourning his death. Realizing that recovery was impossible he prepared for the dissolution, and died in the full belief or the christian faith, willing to face the judgment of the world beyond. He was generous to a fault, and many good deeds that he performed were never permitted to become public to speak his praise.

Letter from Falls Church.

[Correspondence of the Alexandria Gazette.]

FALLS CHURCH, June 1, 1878.—Decoration of the formation of the Congregational congresence of the stated clerk, A. H. Raymond, read the statistical report of the church, showing an increasing growth in the membership. The church was organized May 30th, 1876, with 25 members. During the first year it received four members; during the past year there have been added ten members; four have been demitted to other churches, leaving the present membership 35. No marriages or deaths have occurred in the church; there have been three baptisms, and two children born in the families of members. One hundred volumes have been contributed to the library. The mission at Merrifield (Mills > Roads) has been prosecuted with vigor, services and Sunday school being held regularly by Rev. B. W. Pond, and two have united with the Congregational Church from that place. Judge Gray extended to all a hearty welcome. Mr. and Mrs. Dailey, Mrs. Eastman and Mr. Pond sang the "sword of Bunker Hill." L. Deane, esq., of Washington, D. C., congratulated the church on its success, and tendered them the well wishes of the mother church, in Washington. Rev. B. W. Pond gave an account of his mission work at Merrifield, and the encouragement he had received therein. John McCormick, Superintendent of the Mission Sunday school, described the interest manifested by his scholars and their rapid THE UNDERSIGND having withdrawn progress in Scriptural knowledge. Addresses were also made by Mr. A. P. Eastman and Dr. Davis. Dinner was served at 5 p.m., and claim-

ICE CREAM.

My Ice Cream Manufactory, one of the largest in Virginia, still continues to supply private customers, Sunday schools, excursions, pienics, fairs, festivals and associations, as well as the trade, with that SUPERIOR CREAM that has made a name in this community, and is known everywhere as BRENGLE'S ICE CREAM. I could easily reduce its price by lowering its quality, but good cream, of fresh, pure, wholesome ingredients, cannot be furnished at a less price than I serve it. Of course, I could "grade my cream by the price," but my cream would lose the good name that years of fair dealing have won for it. I ask that persons abroad ordering "Brengle's Cream" from third parties will assure themselves that the cream sent is certainly from my establishment. I warrant my cream, and do not wish that inferior cream, sent out as mine, may injure its reputation. It is my aim to furnish the BEST CREAM IN AMERICA, and my customers are satisfied that I do so. HENRY BRENGLE.
